Welcome to The Tri Doc

We welcome you to our clinic and look forward to helping you with any health issues you have. We will happily address any questions or concerns you may have. At The Tri Doc we are committed to helping patients recover from injuries, resolve health concerns, and enjoy an active, healthy lifestyle. This commitment includes the possibility of referring out for diagnostic testing or to other practitioners if necessary to help you obtain optimal results.

Chiropractic care and rehab are most effective when you are committed to your health and follow the recommended treatment plan. Frequency and consistency are key. It is a process not a quick fix, but can have long lasting benefits.

We maintain a busy schedule and we really strive to stay on time. Please keep your appointments and be punctual so that you and fellow patients do not have to wait. If you need to cancel or reschedule an appointment please give us ample notice so we can open that appointment time for someone else who needs it. We respect your time and ask that you respect ours. Whenever possible, we recommend that you schedule your appointments in advance, but if an urgent need arises and you need a same-day appointment we will do our best to accommodate you. If you are using the online scheduling system and can't find an appointment that works for you, please call us. We will try to find something to fit your schedule.

We love kids and your children are always welcome to join you in our clinic. For their safety and the well-being of all patients please supervise your children while they are here. Do not allow them to touch any of the fitness or treatment equipment.

Please do not use your cell phones in the treatment rooms. Please finish your calls prior to coming into the clinic.

We will file insurance claims for you as a courtesy, but this is not a guarantee of payment. We want you to be able to enjoy the benefits of chiropractic care and are happy to work with you by offering several financial options. Please note that all unsettled accounts over 90 days past due will be sent to our collection agency unless acceptable payment arrangements have been made.

The majority of our patients come to us through referrals. We appreciate you passing on our information to your friends and family and/or posting a review of our clinic online. We understand that you have many options when it comes to your healthcare and we thank you for choosing The Tri Doc.

The Tri Doc

Patient Name: _____ Today's Date: _____

Please read the following carefully:

I have answered the information to the best of my ability. I have not purposely omitted information or represented false information about myself. If I become aware of new information, I will notify the doctor or staff immediately.
I understand that insurance billing is a service provided as a courtesy and that I am financially responsible to The Tri Doc and/or its affiliated entities for any charges not covered by health insurance benefits. It is my responsibility to notify The Tri Doc of any changes in my health insurance coverage. In some cases exact insurance benefits cannot be determined until the insurance company processes the claim. I am responsible for the entire bill or the balance of the bill as determined by The Tri Doc and/or my health insurance carrier if any part of the submitted claims are denied for payment.

With my signature I hereby authorize direct remittance of payment of all insurance benefits, including Medicare if applicable, to The Tri Doc for all covered medical services and supplies provided to me during the course of treatment.

Signature of Patient or Authorized Representative: _____ Date: _____

Functional Dry Needling and Acupuncture

Functional dry needling (FDN) and acupuncture are among our many available treatment options. Both procedures involve inserting a tiny monofilament needle through the skin. Needling can be very effective in treating a variety of musculoskeletal issues, but as with any treatment, there are risks of possible complications. The most serious risk with needling is accidental puncture of a lung (pneumothorax). If this were to occur, it would likely require a chest x-ray and no further treatment. Other risks include bleeding, bruising, infection, and nerve injury. These side effects are rare, but should be considered.
If your doctor determines that FDN and/or acupuncture are viable treatment options for your condition, he/she will discuss the details of the procedures, the probability of success, and the risk of side effects prior to treatment.

With my signature, I hereby consent to the performance of functional dry needling and/or acupuncture. I also consent to any measures necessary to correct complications which may result.

Signature of Patient or Authorized Representative: _____ Date: _____

Use and Disclosure of Protected Health Information

The Tri Doc may use my protected health information and may disclose such information to others for the purpose of treatment, determining insurance benefits, obtaining payment, or supporting the day-to-day healthcare operations of this office. You should review the attached Notice of Patient Privacy Policy for a more complete description of how your protected health information may be used or disclosed.

I have received the **Notice of Patient Privacy Policy**. _____ patients initials

Notice of Treatment in Open or Common Areas

Open/common areas are used for some treatments and therapies. Private areas are always available to discuss your health information upon request.

Appointment Reminders

Appointment confirmations and reminders will be automatically sent via secure, encrypted email. In addition, patients have the option of receiving reminders via text message. Text messages are not encrypted and therefore should not be considered a secure form of communication. Appointment reminders contain the patient's name and details about the scheduled appointment, but not personal health information.

With my signature I hereby acknowledge the privacy practices of this office and consent to the use and disclosure of my health information as outlined in the Notice of Patient Privacy Policy.
